Where is the Economy?

Of buying cheap paints.

Ever have a cheap job of painting done on your house and find the paint rubbing off as soon as dry and looking worse after six months than if it hadn't been put on?

Whoever did the job used cheap paints.

Here are five good paints that you can specify for the particular purpose required. They are all perfectly reliable and first-class, yet the prices are very low.

Pure Prepared Paint
Rubber Cement Floor Paint
Barn and Roof Paint
Climax Carriage Colors
Durable Wagon and Implement Paint.

GOVERNOR CARTER'S TOUR ON THE ISLAND OF MAUI

Received at Many Luau—Addresses Large Assemblies of Young and Old—Democrats Disgusted with Fusion Ticket.

MAUI, Sept. 17.—On Saturday the 10th, when Governor Carter and party which included Secretary Atkinson, Land Commissioner Pratt, Forester Hosmer and others arrived in Walluku from Waihee, they were met at the bridge over the Walluku river by Company I of the National Guard, composed of forty sturdy soldiers commanded by Capt. W. E. Bal. Under this military escort the distinguished visitors entered the town where later in the evening addresses were delivered by the Governor and Secretary to a large gathering of people assembled in front of Hall church.

Sunday was spent by Mr. Carter in Kula at "Kulamau" and by Mr. Atkinson at Haleakala Ranch. Mrs. Carter and Miss Coleman were also guests of Mr. and Mrs. J. P. Cooke, having proceeded directly to Kula via Maunaloa Bay, thus avoiding the fatiguing trip around West Maui. On Monday the 12th, the gubernatorial party which in addition to the Honolulu officials now included J. P. Cooke, L. von Tempsky, W. O. Aiken and others, visited Polipoli Spring 5900 feet above the sea level, and found sufficient water for the stock that frequented the locality, but no surplus.

AT ULUPALAKUA.

The same afternoon the party attended a luau given on the premises of Ulupalakua school. From the veranda of the building the Governor and Secretary made speeches to a gathering of 150 or more Hawaiians, for the most part sympathizers with Home Rule party politics.

Among the many things said by Mr. Carter was this: That if it was within his power, he would discharge from office any government employee who refused to be approached by the humblest citizen when the latter desired to make some complaint.

Mr. Atkinson made some most forcible remarks in regard to local political conditions to the effect that favors could not be expected by people always in opposition to the administration. The way to gain advantages was to work in harmony with "the powers that be" and, all pull together for the common good.

The night was spent at Dr. and Mrs. J. H. Raymond's by Mrs. Carter, Miss Coleman, Messrs. Atkinson, Pratt, Hosmer and others, while Governor Carter and Mr. Cooke went back to Kamaole to Edgar Morton's residence.

TALK TO SCHOOL CHILDREN.

On Tuesday the 13th, the whole party at noon came to Kealahou (Kula) school premises where about 500 men, women and children greeted the Governor. A hundred and twenty school children arrayed in their best saluted the Governor and the stars and stripes and sang patriotic songs. Mr. Carter made a short but pleasing address to the children, and according to his custom gave them a holiday.

But the luau! Surely it was a red-letter day for Kula. So many Honolulu dignitaries within its borders and such an elaborate and toothsome banquet, pronounced by that connoisseur Secretary Atkinson, to be the best ever attended by him in his travels around the Islands.

After the feast the Governor delivered a long, interesting address to the large audience assembled in front of the schoolhouse verandas. His speech was simple in style as the occasion demanded—sensible, direct—evading no issue whatsoever.

INHERITED SYMPATHIES.

President Roosevelt did not wish the political situation in the Territory to be as it formerly was, a sort of race-war between the Hawaiians and whites, but desired the best elements of both factions to become united and to control government affairs. He (Carter) desired to show the natives the folly of the former status. His grandfather had been treasurer (Minister of Finance) when these islands were under a king and his father had been Kula's minister to Washington. The former had always stated that Hawaiians were the flower of all Polynesian races. Both had maintained that Hawaiians were capable of self-government. He wished to prove himself a worthy descendant of them both. He declared that the action of last legislature showed that Hawaiians could govern themselves.

Maui had no good roads when compared with Hawaii and other islands. At Honolulu recently, when the natives learned of his intended visit, they

turned out with cane-knives to cut away the lantana which choked the narrow pathway. If his coming would always be of such benefit, he would visit Maui regularly once a year and have the lantana cut. He thought the day of local road boards was past. What was needed was a competent engineer for each island to control the planning of the roads.

Concerning Polipoli spring, he found that no resident had been refused water for his stock and that no condition of the agreement made during the former administration had been violated. When he returned to Honolulu he would consult the Attorney General about the matter.

AS TO HOMESTEADS.

In regard to homestead lands, he found that so many different methods had been allowed "homesteaders" for fulfilling conditions, there was no uniformity whatsoever in the matter. Mr. Pratt and himself would probably arouse hard feelings, for they intended that every homesteader should satisfy the conditions in a uniform manner, in the one prescribed by law. He believed in the 999 year leases, under which natives could not sell their homesteads to Chinese or plantations.

He did not for a moment advocate federal control of the Leper Settlement. What he wished and believed could be accomplished was to discover a cure for the dread disease by aid of the resources of the federal government.

Governor Carter made a fine impression upon the citizens of Kula.

Secretary Atkinson caused much merriment by his humor. He said the Governor's grandfather was a well known missionary and therefore the Governor was a missionary. All missionaries needed watching and that was the reason he always followed the Governor around and watched him.

JACK'S SOUL VEXED.

Mr. Atkinson also expressed his indignation because some road-work in the vicinity had been completed under contract by Japanese instead of by citizen labor.

Tuesday night was spent by the visitors in Kula. On Wednesday morning Forester Hosmer, in company with L. A. Thurston who had arrived from Honolulu that morning, made a trip up Haleakala above the forest line. The Governor, accompanied by the Secretary and Land Commissioner, visited the Makawao school and addressed the school children.

At noon the party took lunch at Mrs. Dowsett's at Puuomale. At 2:30 p. m. Maunaloa Seminary, Paia, was visited, and the remaining hours of the afternoon were devoted to a reception at the residence of Manager and Mrs. D. C. Lindsay of Paia plantation.

LUAU ABANDONED.

The sad news of Mr. Sam'l T. Alexander's sudden death in South Africa caused the abandonment of the grand luau in honor of the Governor arranged to take place under the auspices of the Maui Agricultural Company at Paia.

Wednesday night was spent by the

CONFIDENCE

said Lord Chatham, "is a plant of slow growth." People believe in things that they see, and in a broad sense they are right. What is sometimes called blind faith is not faith at all. There must be reason and fact to form a foundation for trust. In regard to a medicine or remedy, for example, people ask, "Has it cured others? Have cases like mine been relieved by it? Is it in harmony with the truths of modern science, and has it a record above suspicion? If so, it is worthy of confidence; and if I am ever attacked by any of the maladies for which it is commended I shall resort to it in full belief in its power to help me." On these lines WAMPOLE'S PREPARATION has won its high reputation among medical men, and the people of all civilized countries. They trust it for the same reason that they trust in the familiar laws of nature or in the action of common things. This effective remedy is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. It quickly eradicates the poisonous, disease-breeding acids and other toxic matters from the system; regulates and promotes the normal action of the organs, gives vigorous appetite and digestion, and is infallible in Prostration—following Fevers, etc., Scrofula, Influenza, Asthma, Wasting Diseases, Throat and Lung Troubles, etc. Dr. W. A. Young, of Canada, says: "Your tasteless preparation of cod liver oil has given me uniformly satisfactory results, my patients having been of all ages." It is a product of the skill and science of to-day and is successful after the old style modes of treatment have been appealed to in vain. Sold by all chemists.

Governor and party at Mr. Lindsay's. On Thursday a luau was attended at Huelo near Manager Myers' residence and speeches made to the natives by the Governor, Secretary and others.

Thursday night was spent at Mr. Myers' and W. E. K. Maki's. On Thursday a fine luau was given the visitors at the Koolau ditch camp, three miles mauka of Keanae village. This feast was arranged for by Engineer O'Shaughnessy, Mrs. T. Awana and D. W. Napihaa.

The usual addresses were made after the feast by the Governor and Secretary.

In the evening at D. W. Napihaa's, Keanae, they also spoke to a large company of Hawaiians.

Today the Governor's party is feasted at Nahiku.

POLITICAL.

Last Saturday night the 10th, at the Walluku skating rink, the Maui Home Rule-Democratic convention made the following nomination:

For Senators—Wm. White of Lahaina and James L. Coke of Walluku. For Representatives—John Richardson and C. L. Kookoo of Walluku, D. H. Kahalelelo of Molokai, J. E. Kekipi of Pauwela, G. P. Kaulmakaole of Hana and Geo. Kauli of Honokohau.

In the race for senators, White led the contestants by one vote, and Coke tied with Kaiue, President Kalaauokalani casting the deciding vote in favor of Coke.

In choosing a representative—candidate from Makawao district D. H. Aukai of Kula was beaten by Kekipi by 2 or 3 votes.

In the choice from Molokai, F. W. Beckley was barely beaten by D. H. Kahalelelo and in selection for Hana Wm. L. Hardy ran close with Kaulmakaole.

For Lahaina honors Geo. Kauli turned down both Charlie Makekai and D. Kaei Kahalelelo.

Senator Kalaauokalani presided and was the controlling spirit of the convention.

The Republicans say that the slate nominated last Saturday is decidedly a weak one and it is rumored that the Democrats are much dissatisfied with it. Rumor has it that the Democrats will soon hold a convention by themselves and nominate an entire new representative ticket. The Pauwela Democrats are especially aroused over the matter.

PROMOTION WORK BY MOVING PICTURES

From a late colonial paper it is learned that bioscope pictures of scenes in the industrial life of Canada were recently shown for two months at the Palace Theater, one of the best of the West End music halls in London. It is stated that the Agent-General for Victoria (Australia), Mr. Taverner, is endeavoring to make arrangements to advertise his State in the same way. He learns that the supply of such views to theaters and lecture agencies is mainly in the hands of one firm, the Charles Urban Animated Pictures Company, which states that it has nearly 3000 clients on its books. The Canadian views were obtained by the Palace theater through its agency, and it now offers to send out a photographer to Victoria to obtain a similar series of pictures there. The company's charge for doing this and subsequently offering the pictures to its customers would be £500. Mr. Taverner has recommended his Government to accept the proposal.

The conviction is rapidly forcing itself upon the advertising world that it is the illustrated ad. that does the most effective work. Men, women and children will look at a picture whenever it is presented to them, and often it will leave its impress upon the mind where an eloquent appeal in words will remain unnoticed. Hawaiian scenes depicted in this manner at Los Angeles and other much frequented tourist centers on the mainland during the season would be a powerful aid to promotion work.

Maui News Items.

The Haku Cannery is running this week and turning out a high grade of canned pines and pine jelly.

A proposition is being considered to establish a candy factory, in connection with ice cream parlors in Walluku.

The Huelo Mill is being taken apart by William South, engineer of the Pacific Sugar Mill, for the purpose of removing it to Hawaii.

C. H. Judd of Parker's ranch, who brought over fifteen head of horses and found ready sale for them at Hama-kupoko, returned to Waimea by Tuesday's Kinau.

The following is a correct list of officers of the sub-executive committee of the Republican party on Maui: H. P. Baldwin, Chairman; J. N. K. Keola, Secretary; T. M. Church, Treasurer; A. N. Kepoiaki, J. J. Newcombe, Edgar Morton, W. A. McKay and Geo. O. Cooper.

Maui Horse Deteriorated.

Some years since, when William Goodness, W. H. Cornwell, Sr., and other kamaainas on Maui were engaged in raising horses there were to be found on Maui some of the best horses raised on the Islands. Today Hawaii and Kauai have outstripped Maui in this direction, and only last week a shipment of horses from Hawaii was brought to Maui and sold at good figures, while Kauai polo ponies are said to excel anything that the Maui boys have been able to import from the coast. It is about time that Maui horse raisers should import the right kind of stallions and broodmares and compete with the others in raising fine stock for home use.—Maui News.

62 Acres —IN— MANOA VALLEY

WITH A

\$15,000

Stone Mansion

IS WHAT I SHALL SELL

TODAY

AT THE

Judiciary Building

—AT—

12 O'clock Noon

62 acres in one block, the location acknowledged to be the most healthy of Honolulu's suburbs. Not a vacant house in the neighborhood. Fifteen applicants for one house in three days voices the public sentiment as to their choice of a locality in which to live.

High elevation and healthy surroundings are prime factors in disposing of property, especially where there are the added advantages that this land has, viz:

Good streets. Curbed sidewalks. Rapid transit; cars passing through the estate.

Lots plotted, cleared, ready to be sold and built upon.

\$45,000 has been spent in exploiting this property to its present complete condition.

The finest of schools at its door. The soil rich and porous, the slightest attempt at cultivation being repaid bounteously.

The view magnificent, sweeping as it does in panorama the Mountains, Valley, lower lands of the City and the Ocean.

A \$15,000 mansion enclosed in its own grounds of 4½ acres built of stone, and modernized after the old Mexican style of architecture, with its broad piazzas and central court is a part of this estate.

Property adjoining is being held and sold at \$1500 for small lots, which would place the value of this property at over \$100,000.

Where nearly \$50,000 has been spent in practical development, it emphasizes the fact that a very profitable investment may be made under the conditions existing that force this land on the market.

It is a property ready for sale, subdivided into lots, and any agent can speak glowingly and emphatically when offering them, for the property will bear the closest investigation by any intending purchaser of a home.

There are hundreds of semi-invalid monied people in the United States seeking a country for residence, where their bodily ailments would be benefited, such country having opportunity also for investment of money which would bring them safe and profitable returns. Statistics show we have here such climate and opportunity. The property I have to sell today is the location such people would choose for homes.
